SKILLS

Languages: C++, Python, JavaScript
Tools/Technologies: HTML, CSS, JavaScript, Git & GitHub
Core: Data Structures, OOP, Arrays, Pointers, Searching
Soft Skills: Problem-Solving, Teamwork & Collaboration, Adaptability, Creativity, Communication, Presentation

PROJECTS

- Amazon Clone Website** | *Web Development*
- Developed an Amazon-inspired e-commerce website clone to practice front-end web development and recreate a familiar shopping interface.
 - Implemented a structured product-focused layout with navigation and web-page sections using front-end technologies.
- Personal Portfolio Website** | *Personal Project*
- Designed and developed a personal portfolio website to showcase academic profile, projects, technical skills and professional links.
 - Focused on clean structure, responsive presentation and user-friendly navigation.
- Arduino-Based Project Model Exhibition** | *Academic Project*
- Participated in an Arduino-based project model exhibition, gaining hands-on exposure to building, demonstrating and presenting a practical technology project.
- Community Development Project** | *Nayee Asha Ara*
- Worked on a community development project focused on identifying and documenting social, educational and awareness-related challenges.
 - Contributed to observations, documentation and understanding of community needs for the project report.

ACHIEVEMENTS & ACTIVITIES

- Participated in painting and art competitions.
- Participated in an Arduino-based project model exhibition.
